(By United Press.)
Paris, Feb. 27.—Creation of a "buffer state" between France and Germany by making the Rhenish province self-governing, was discussed by the peace delegates today. This project which is still in a formative state, was introduced during a debate on the agitation over the boundaries of enemy countries.

The next plenary session of the peace conference probably will be in the middle of next month when all special committees will present their reports.

Special progress has been made by the committee on reparation and responsibility for the war, it is understood.

LIVE STOCK BILL IS PAST SECOND READING

Measure in Which Local Farmers Are Interested Survives Attempt at Amendment

JINNETT FAVORS THE CHANGE

The bill to create a state live stock sanitary board to take the place of the present state board of veterinarians, in which Rush county farmers have evinced a deep interest, has passed second reading and been sent to engrossment in the lower house of the general assembly in Indianapolis. Before passing second reading yesterday afternoon, there was a discussion of the proposed amendment to give the deciding vote of the board to the state veterinarian instead of the governor which was finally rejected. Representatives Jinnett of Manilla and Symons of Lewisville, Henry county, spoke in favor of the amendment.

Local stock raisers were reported to have supported the bill in its original form, which took from Purdue university control of stallion enrollment and placed in the hands of the proposed board. The bill has been amended, however, during its course through the house to leave the stallion enrollment board at Purdue.

The bill has passed the senate, but in much different shape than it is now in the house. The senate bill gives the governor the deciding vote and makes the proposed sanitary board the stallion enrollment board.

MEETING IS THE BIGGEST OF SERIES

Dr. Robert Brumlay, National League Worker, Speaks at Win-My-Chum Service

"HEADLINER" COMING TONIGHT

One of Prominent Men at Centenary Conference in Indianapolis Will Give Address

Last night's meeting of the Win-My-Chum services, being held by the Epworth League at the St. Paul's M. E. church each evening during the week, was the biggest one of the week. Dr. Robert Brumlay of Chicago, a national Epworth League worker gave the address of the evening. The Girls High School Glee Club sang a beautiful number, "Deep River," and Miss Marion Kinsinger and Ernest Parke played a very excellent violin duet. They were accompanied at the piano by Mrs. Parke.

"The Centenary and its Relation to Young People," was the subject of the address given by Dr. Brumlay, in which he showed how the Epworth League was ready and prepared to meet all of the demands of the Centenary. His particular appeal was for life service, in which he showed his hearers the great call for young life today as never before, to devote itself to church work.

The meeting this evening will be addressed by one of the "headliners" from the big meetings being held today and tomorrow in Indianapolis. It is probable that Dr. Murdoch, said to be a very interesting speaker, will give the address. There will also be special music.

"Soldiers Night" will be Friday evening the entire hour will be given over to stories told by the returned soldiers and appropriate musical numbers. Jerome Caron will tell the story of "Going Over the Top," and S. B. Groom, who recently moved here and who was for some time stationed in the navy at Hampton Roads, will tell the story of the life of the sailors.

FINED FOR ASSAULTING SCHOOL HACK DRIVER

John Wills, Colored, Pays \$1 and Costs for Severely Beating John Ryon—Provoke Alleged

NO JURISDICTION IN CITY.

John Wills, colored, was fined one dollar and costs by Squire J. P. Stech late yesterday for assault and battery. The charges were filed by John Ryon of Nell's Corner. Mr. Ryon is a school wagon driver and hauls Wills' brother and sister. It is alleged that Mr. Ryon insulted the children until they would no longer ride with him, coming home crying at night. Mr. Ryon was asked about the matter and when he called John Wills insulting names, it is alleged, he was severely beaten by Wills.

Wills pleaded guilty to the charge and after paying the fine said: "Judge I paid this fine and if he repeats his insults tomorrow, I will pay another one of the same size, but Mr. Ryon will get a worse beating up next time."

Roy Wills, a brother, who is said to have had a part in the fight, was charged with assault in another affidavit filed by Mr. Ryon, but it was dismissed on motion of the prosecutor after John paid his fine. The Wills' then filed an affidavit against Ryon for provoke, but it was dismissed because Squire Stech found that he had no such jurisdiction in such cases, it being necessary to prefer provoke charges with squires in the township where the alleged offense was committed.

BOLSHEVIKI PLAN COMBINED OFFENSE

Archangel Dispatch Reports Preparations For Drive on All But Two Fronts

ALLIES TAKE THE OFFENSIVE

Charging Spartacans Are Too Conservative, German Anarchists Start Counter Revolution

(By United Press.)
Amsterdam, Feb. 27.—A Soviet republic has been proclaimed throughout Saxony according to dispatches received from Berlin today. All railroad traffic has been halted in that state. A general strike also was reported in Leipzig.

London, Feb. 27.—The Bolsheviks are planning a combined offensive on practically all fronts, it is revealed in captured orders of the Spartacan military commander, a dispatch from Archangel reported today.

Only the Murmask and Finnish fronts will be excluded from the offensive and preparations will be made there for defensive fighting. While these preparations are going on the allies have successfully undertaken an offensive on the Murmask front.

Reports received from Archangel today said the allies advanced 26 miles in that region, the Bolsheviks suffering heavy casualties. Other dispatches said the head of the American Red Cross mission in Russia had reported that the Bolsheviks massacred hundreds of civilians.

Berlin, Feb. 27.—Anarchists, charging the Spartacans are to conservative, have started a counter revolution in Germany.

Reports from Dusseldorf today stated that anarchists had overthrown the Spartacans and seized control of the city.

Meanwhile the Spartacan-Soviet revolution has spread to all parts of the country. New uprisings, strikes and riots were reported in Saxony, Bavaria, the Rhineland and Ruhr districts.

Weimar, the present site of the German government, has been cut off from Berlin and no information could be obtained as to what had transpired there.

The miners and industrial workers in Saxony have joined the Spartacans and that entire country is reported to be paralyzed.

The soviet government in Munich has threatened to execute ten prominent citizens if the German government send Prussian troops against them. In Berlin the congress of workmen, soldiers and peasant council demanded that the assembly become a provisional national council.

MAJORITY AGAINST HOSPITAL IS 917

Official Tabulation of Vote Today Shows 1,612 Were Cast Against it and 695 For it.

COST WILL BE ABOUT \$500.

County Saves About \$800 Because of New Law Passed Monday Reducing Election Officials.

The official vote on the county general hospital election Tuesday shows a majority of 917 against the proposal. The total vote for the hospital was 695 and against 1,612. The election commissioners met this morning, as provided by the law and canvassed the vote. Although unofficial figures presented yesterday varied slightly from the official vote, some peculiarities of the vote noted yesterday were borne out in the board's tabulation.

For example, the official vote disclosed that Center township No. 2 was the only precinct in the county which did not give a vote for the hospital; also that no precinct outside of Rushville township carried for the hospital except Noble No. 1, which gave the hospital a majority of five votes. All but two precincts in Rushville showed a small majority for the hospital. In one there was a tie and in another the majority against the hospital was six.

It was estimated today, judging from the claims which have been filed, that the election will not cost the county much over \$500. The claims amount to all the way from \$10 to \$24.50 a precinct, which includes pay for officials, voting places and meals.

The county saved close to \$800 because of the passage of the new hospital law Monday afternoon by the legislature because it provided that only an inspector and one clerk should be hired in each precinct. This did away with another clerk, two judges and two sheriffs, whose salaries alone would have

SAVE MONEY ON SHOES FOR THE WHOLE FAMILY

From Foochow, China, comes this letter from R. E. Gardner, Foochow College: "Neolin Soles have solved the shoe problem for me. Other soles wore out quickly on the rocky roads here, and I had no end of trouble with them," he writes.

Where other soles fail, Neolin Soles always stand the test of hard wear and rough usage. This fact points the way to economy. Buy Neolin-soled shoes for the whole family, and so save shoe money. And have Neolin Soles put on your old shoes, too.

These durable, flexible, and waterproof soles are scientifically made by The Goodyear Tire & Rubber Co., Akron, Ohio, who also make Wingfoot Heels, guaranteed to outwear all other heels.

MOSCOW FIVE WINS AGAIN

High School Basketball Team Defeats Arlington 15 to 13

Moscow high school defeated the Arlington quintet Wednesday night for the second time this year, by the close score of 15 to 13. The game was fast and the losers led for the greater part of the game, only to lose out in the last few minutes of play. At one time it looked as if an overtime period would be required to settle the contest but this was not the case. Harlin starred for Moscow, scoring the greater number of Moscow's points. Both teams will play in the tournament here Saturday and each is wanting a chance to defeat the other.

Bad Teeth Often Cause Rheumatism

So Says James H. Allen, Who Drove Out Rheumatic Poison After Being Grippled For Years

SAYS IT'S EASY WHEN YOU HAVE THE RIGHT MEDICINE

Take my prescription, which all first-class druggists dispense under the name Allenrhin, says James H. Allen. In two days it will start to drive the poisonous uric acid from your joints and muscles, and free you from all rheumatic pain and agony and reduce swollen joints.

Rheumatic poison often gets into the system through decayed teeth, and in consequence people who desire to avoid rheumatism in years to come should have bad teeth attended to at once.

Wear warm clothes, get out in the fresh air and sunshine whenever possible; keep the body clean, drink plenty of pure water, don't overload the stomach, and avoid alcohol, even in its mildest form.

These are precautions worth heeding, but to banish all signs and traces of rheumatism and do it quickly, hundreds of well people, once full of rheumatism, will freely urge you to get a bottle of Allenrhin at once.

The blessed relief this marvelous prescription quickly gives has made for it thousands of friends. It is Mr. Allen's own discovery; it made him strong and well after rheumatism had crippled him and made him unfit for work. It is guaranteed. (Adv.)

FRISCO GOES TO MAT WITH STREET RAILWAY

Damage Suits Involving Nearly \$7,000,000 Are Filed Against The City by U. S. Railways

CAR LINE NEXT TO RAILWAY

(By United Press.)

San Francisco, Cal., Feb. 27.—When the case of the United Railway against this city is argued in the U. S. supreme court in March, Sen. Hiram Johnson will be one of the attorneys representing the city. Damage suits against the city totaling nearly \$7,000,000 are indirectly involved. Johnson's fee will be \$10,000.

The United Railways Co. is suing because the city established a street-car system on Market street, paralleling the company's tracks. The city's cars took many thousands in fares that otherwise would have gone to the private concern. The company seeks an injunction to prevent the city operating these lines.

Incidentally, San Francisco's street-car fare has remained at 5 cents, while fares in many other cities have jumped to 6 cents. Friends of the municipal line claim competition is the reason for this.

Famous Melodrama Tonight

Knowing a phase of English life that under the stress of the war may never be seen again "Sporting Life," Maurice Tourner's splendid picturization of the famous Drury Lane melodrama which scored so heavily two decades ago is one of the greatest motion picture spectacles produced in this country in many years. "Sporting Life," will be shown at the Princess theatre tonight and tomorrow.

The scenario by Winthrop Kelley departs from the original play mainly in the elaboration of detail. The general outline is not disturbed. The plot concerning itself with Lord Woodstock's winning of the Derby with his mare Lady Love, and his stepping into the ring to take the place of an "unknown" pugilist whom he had backed heavily and who had been drugged through the agency of Olive de Carteret, the vamp, at the instigation of her husband, who is Lord Woodstock's deadly enemy. The story has to do with the attempt of de Carteret to ruin Lord Woodstock.

The romantic element is provided by the Earl who is in love with the daughter of his chief trainer. Her sister loves Joe Lee, a prize fighter, not wisely but too well, and when she attempts suicide, her father, on learning the truth, becomes the willing tool of Mrs. de Carteret in doping Lee just as he is to step into the ring. Lord Woodstock takes his place and not only wins the fight but thousands of pounds as well.

The production is a notable one from every angle while the support is exceptionally good. The principals in the cast are Ralph Graves, Warner Richmond, Charles Craig, Constance and Fair Binney and Willette Kershaw.

Thrilling Drama at Mystic

The picturesque West in the early days has furnished subject matter for many a melodrama, but none of them will be more alluring and attractive or vivid with human interest than Marie Walcamp's first big Bluebird production, made from Bret Harte's famous story of "Forty-niner" days, "in the Carquinez Woods," which will be shown under the title of "Tongues of Flame," at the Mystic tonight.

Marie Walcamp, known to hundreds of thousands of fans because of her recent darning in "The Lion's Claws," the thrilling Bluebird wild animal serial, was picked to play the role of Teresa, the dance-hall girl, who reforms under the influence in the woods of L'Eau Dormant, the educated half-breed, who lives as a hermit in a large hollow tree.

A love quadrangle in which the half-breed, Teresa, the sheriff and a minister's daughter figure, comes to a terrific climax when the woods catch on fire and Teresa, Dormant and the sheriff are encircled by its flames. Then comes a startling de-

PREDICTION, NOT A THREAT

Ice Dealers, in Session Today, Think Prices Will go Up

(By United Press.)

Indianapolis, Ind., Feb. 27.—That "every rose has its thorn" was brought out more forcibly here today when delegates to the annual meeting of the Indiana Ice Dealers association announced that owing to the mild winter ice would be scarce and high priced next summer. As an aid to the situation, however, they pointed out that the season will be "dry" in Indiana, while only a portion of 1918 was affected by the dry law. Hotels, saloons and cafes were heavy users of ice for refrigerating liquor. This year the trade will be entirely without this stimulus and the soft drink business is not expected to be sufficient to take its place.

On default of the defendant, Pete T. Demmer, Walter E. Smith yesterday was awarded judgment for foreclosure of a mortgage and on a note for \$85.32 on principle and interest, and \$20 attorney's fees, making the total \$105.32. The suit was dismissed as to the Farmers Trust company, administrator of the estate of Nancy Demmer, which was made a party to the case after it was filed.

They Let Him Sleep.

H. T. Strayhorn, Gainesville, Ga., R. R. No. 3, was unable to sleep all night without getting up. "Sometimes only a few minutes after going to bed, I would have to get up, and I tried everything I heard of for the trouble. Finally I tried Foley Kidney Pills and after taking one bottle I believe I am entirely cured, and I sleep soundly all night." Behind the Procession

The voters of Rush county—those who went to the polls Tuesday—spoke plainly on the hospital question. They buried the project so deep that it can not be resurrected for a few years, at least, and Rush county will have to be content with lagging behind, though she is one of the wealthiest counties in the state, in proportion to her population.

But it may be that Rush county got her wealth by holding on to it and a big majority of the voters Tuesday decided that they would continue to cling to it. Of all the elements that entered into the consideration of the hospital, the one element of expense with the pivotal point—the thing which turned the balance against the hospital.

Unfortunately the small taxpayer did not realize which side his bread was buttered on, to quote a homely phrase. He did not think of the immense benefits to be derived from a county general hospital, in comparison with the small cost to him, else he would have taken the time and trouble to vote for the hospital.

Where the majority of the people in ordinary circumstances live, the

hospital carried. Those who neglected to go to the polls overlooked an opportunity to better their own conditions. Perhaps they will have a fuller realization of the worth of a hospital the next time the question is submitted to the voters.

Those who favored a hospital on any site regret that the controversy over the location ever arose, but this did not cost the county the hospital. Very few voters considered the site when they weighed the question and decided which way they should vote.

A hospital was first proposed as a memorial to the soldiers and sailors of Rush county who died in the war. There are some who hooted at the idea of a hospital as a memorial and talked in large terms about a Y. M. C. A., a community center, a new city building with an auditorium and other fine things.

If it is impossible to get a majority vote for a hospital which everyone in the county would pay for, suggestions should be forthcoming about methods to be used to raise enough money by public contributions to erect any sort of a building as a testimonial to the sacrifices of the men who went from Rush county to serve their country, almost a score of them never to return.

Community Work

Think of the happiest and at the same time the most wide-awake and progressive family you know—the one which most closely illustrates your idea of family life. Analyze the secret of their success, and you will probably find it lies in their power of co-operation and compromise. No member insists in carrying out his own wishes regardless of the interests and wishes of the others. Each claims a little and yields a little. The real basis of their life is a spirit of mutual help and forbearance.

The community is only a larger

family. To accomplish satisfactory results there must be a body of citizens working together in harmony. And in order to achieve anything worth while, each man must not insist too strongly upon his own wishes and ideas. When he finds that they conflict with the ideas of others he must be prepared to yield the less essential details of his plan—or perhaps to attain only part of his object.

If the public improvement which he has at heart seems desirable enough to warrant it, he must be ready to support his neighbor's pet project (if it is not distinctly an unworthy one) in order to gain the neighbor's support to his own object. He must control his temper, study the personality of the man he is dealing with, use tact and consideration.

These are qualities we must all cultivate to work with each other successfully and to do our part in the community life.

Now that the Red Cross auxiliaries are closing up everywhere will there be another era of bridge whist and embroidered doilies?

A captured German colonel said dolefully, "Nothing can resist the American troops." We always knew that the American girls were irresistible—perhaps the boys learned it of them.

Maybe when President Wilson is again settled at the White House he and the senate will hold a love feast—and then again maybe they won't.

It is a question which brings the greatest aggregate amount of joy to America—the day when a transport from France arrives or the day when the price of butter drops a cent a pound.

Premier Clemenceau says that President Wilson is "the most stubborn man he ever encountered." It will be recalled that the emblem of the Democratic party is a stubborn one and that the emblem of the United States is as determined as it is powerful.

WOULD GIVE SOVIETS WORD IN GOVERNMENT

President of German Republic Believes This is Only Means of Pacifying Them

WANTS A NATIONAL SOVIET

(By United Press.)

Weimar, Feb. 26.—Creation of a national workers Soviet as a lower legislative branch in the German government is favored by President Ebert as the only solution of the political and economic situation.

Ebert believes that the Soviets cannot be crushed and that they will not be pacified until recognized and given government responsibility. According to his plans, the proposed national Soviet would deal with all industrial questions but would have no power to veto measures passed by the national assembly, which would have no power to veto measures passed by the national assembly, which would remain the sovereign department of the government.

Members of the cabinet have not yet accepted the president's plan regarding the recognition of the Soviet, but many strong leaders in the national assembly are expected to side with Ebert.

ONE CHARGE IS DISMISSED

Otis Jones' Trial on Other Embezzlement Case Postponed

Before time for the trial of Otis Jones of Indianapolis, formerly of this city who is charged with embezzlement, before Squire J. P. Stech yesterday afternoon, one of the affidavits against him was dismissed on motion of Prosecutor Stevens, a settlement having been made with Herman Tompkins, who filed the affidavit. The other charge, contained in an affidavit filed by Noah Tryon, is still pending, and the trial of the case was postponed yesterday afternoon until Monday, March 31. Jones was accused in both affidavits of having sold automobiles belonging to Mr. Tompkins and Mr. Tryon and appropriated the money to his own use.

NAVAL DEPARTMENT MAKES AN ESTIMATION

Nearly \$35,000 in Bribe Money Besides Valid Money Used In Slack-er Scandal.

FIVE ARE NOW UNDER ARREST

(By United Press.)

Washington, Feb. 27.—Nearly \$35,000 in bribe money, besides valid currency, constituted the price paid in the third army naval district slacker scandals, according to naval

department estimation on record here. The report of the investigation showed 5 persons under arrest with a prospect of further detention in and out of the service.

Prominent civilians are believed involved but the department, while promising not to shield them, declared that the case is not sufficiently developed to publish names.

HARRY CAREY IN THE PRODUCTION EXTRAORDINARY "A WOMAN'S FOOL"

There isn't anyone in pictures quite like HARRY CAREY—because he can't be imitated. There are mighty few actors who are so unaffected, so real in every look and gesture, so likeable in every understandable, human action.

Now you know why his audiences love him. Because they can see him think. Because he's one of them and they're right with him all the time. Because he's human and they understand him.

Let the solemn Law lay its ponderous hand on Harry's shoulder and out comes the old sack of "Bull" and the cigarette papers and you see Harry begin to think. And right away you hear

the deep-chested chuckles of joy begin, too—because they know perfectly well that their old pal Harry will pull some outrageous trick and make his get-away just in time to outwith the villain and get his girl back again where she ought to be.

Down on your luck, are you Go see HARRY CAREY! Is the cold unfeeling world against you? Go see HARRY fight it. In love, poor cuss; Go see how HARRY wins his girl. Whenever you want a laugh, a gulp, a thrill and a peach of a love story—whenver you want just human stuff—go CAREY!—the best of all Western character actors before the public today.

PROMINENT DOCTORS EXCITED AND AMAZED

They Are Worked Up Over The Action of
Phosphated Iron Making The Weak Strong

Victims of weak nerves and run down systems due to lack of pure blood will be glad to know that there is, according to the best physicians a reliable remedy for them.

Many who were steadily going down hill to permanent illness and nervous breakdown have regained perfect health by taking Phosphated Iron, the new blood and nerve food.

One elderly woman said, "I was all in, looked and felt like the last run of shad, was clear discouraged without ambition or appetite. Now look at me. I have the good health and bubbling spirits of a girl of eighteen, eat and sleep well. It made a new man of my husband too. And though we are well along in years we both face the future with confidence, knowing that as long as our blood is charged with good health-giving iron and phosphates we are safe."

Again a bookkeeper who used it says: "If ever a man had a case of nerves it was me. I could not sleep at night, the least sound made me jump, appetite gone, everything was up hill work and I felt myself slipping every day. My doctor said: 'Phosphated Iron, it is the exact remedy you require.' The first week I improved; my nerves steadied down so that I slept, my appetite and digestion improved, and it seemed to me that I could almost feel the phosphates and iron feeding my weak watery blood and tired nerves. I now weigh 25 lbs. more than I ever did, and much stronger."

A prominent physician to whom the above statements were submitted said: "Yes, Phosphated Iron is easily the most wonderful iron prescription yet discovered, its ingredients are well known to all blood and nerve specialists and widely prescribed by them. I have used it very successfully in my own practice and cured many patients where other physicians had failed. I can highly recommend it for all cases of weak nerves and poor blood, as well as general loss of tone, with absence of appetite. It seldom fails me in this class of cases."

Special Notice: To insure doctors and their patients getting the Genuine Phosphated Iron we have put in capsules only, so do not allow dealers to sell you pills or tablets.

PRUSSIA SEEKS WORLD SYMPATHY

Attitude of the Prussian is Not
Changed as Far as the Individual is Concerned

CONCLUSION OF VISITORS

Question is of Most Interesting and
Confusing to Understand—
Realize Their Defeat

By FRANK J. TAYLOR
(U. P. Staff Correspondent.)

Berlin, Feb. 1. (By Mail).—That Prussian attitude and ambition is quite unchanged, so far as individuals are concerned, is one of the conclusions a foreigner is forced to believe after living in Berlin long enough to talk to people and to find out what they think.

The question is one of the most interesting and also most difficult to understand. By Prussians is meant the people of North Germany, as distinguished from those of other parts of the country. It is not hard to decide where they are from, no matter where you meet these people, nor is everyone in Berlin Prussian.

As a nation, Germans everywhere realize their defeat and realize the helplessness of their situation. But the attitudes toward the problems before them is sharply contrasting when you talk to South Germans after discussing the situation with Prussians.

Unconsciously, the Prussian as-

Cold Weather

MANURE SPREADER

Every man who is at all familiar with, or is making a study of the question of barn yard manure for fertilizing the soil, realizes the vast waste as a result of DELAY IN GETTING THIS MATERIAL ON THE SOIL. Every man who knows anything about this subject appreciates the waste due to burning, seepage and atmospheric deterioration, but very few fully realize what an ENORMOUS waste this actually is.

The up-to-date modern farmer is considering just as carefully the placing of the fertilizer on the field AT THE PROPER TIME, as he is giving attention to the disposing of his hogs and cattle at the exact time when the market price is right.

He cannot handle this material successfully every week in the year except with a machine that will work successfully in cold weather as well as in warm weather. Here's where RUSHVILLE SPECIAL Spreader stands out prominently as an unconditional success, and here is the answer WHY.

This spreader has the only SELF-CLEANING, FORCE-FEED ENDLESS Conveyor manufactured. Materials falling through the top in cold weather won't clog and freeze on the under sections as it does on all other machines, and therefore put it out of commission. This spreader will go through snow drifts with two horses where other machines will keep three horses busy on a good road.

The distribution is perfect and if you can see your tracks in the snow the next day you will know that you are not overlapping or leaving a blank space. You can't depend on this with the irregular distribution as found on other machines. The SELF-OILING Bearings on RUSHVILLE SPECIAL Spreader do away with the cutting and wearing-outs common to other spreaders, because of failure to oil under freezing conditions.

The RUSHVILLE SPECIAL Spreader sticks to the ground. When the horses go the wheels turn. This is because of good traction and light draft. The only successful combination for icy, slippery ground.

debt with which Germany will be burdened. Food conditions interest them, and the internal problems of the country. Foreign politics occupies far less place in their discussions.

The reason for the remarkably different view-point may be explained by the remark of a Bavarian high in political circles. "Between you and me, we don't mind this defeat so much after all. It's true that we might have made a far better peace a year ago, but we'd still be under the domination of Prussia. Now we are independent of it, and the Prussians know they can't rule us any more. We'll have to pay more, but it is a better freedom."

Prussia probably will make a strong bid to continue her influence over the Germans. The struggle is on now—the South Germans talk of "laws from Berlin" if the capital of the new republic is not moved further south. Unfortunately, there is no big city in Central Germany which would do. Under pressure from the South Germans, a new capital may be built from the ground up, after the manner of Washington.

Another interesting feature of south German life is the satisfaction with their own country and the life there. People are content to live and work and let the outside world alone. This may be due to the fact that life in South Germany is heartier, more solid and less of a struggle than in the North.

In Berlin and other parts of northern Germany there is a huge percentage of the population looking forward to leaving the country at the first opportunity, for American and England, if entry into those countries is possible. You are besieged with people who want to know if Germans soon can go to America. The Prussian viewpoint sees no reason why Germans cannot enjoy the fruits of the world as they did before the war.

Help for American soldiers' families in 44 different countries was asked of the Civilian Relief Department of the Red Cross Insular and Foreign Division in December.

RUM RUNNERS LEAD A ROMANTIC LIFE

Colorful Chapter Written in the
History of Prohibition by Daring
Bands of Smugglers

FROM TOLEDO TO DETROIT.

The Michigan State Constabulary
Has Many Thrilling Chases Af-
ter Law Violators.

(By United Press.)

Detroit, Mich., (Feb. 27).—A colorful chapter in the history of prohibition is being written by numerous daring bands of whiskey smugglers operating in Michigan.

Their attention is centered principally on Detroit.

Smuggling whiskey into the state today is not the crude, haphazard business it was when Michigan went dry, last May. Brains, daring and ingenuity are necessary to circumvent the forces engaged in enforcing the dry laws.

The principal source of supply for Detroit and vicinity is Toledo, O. Two good automobile roads connect the cities. Along these roads, at the

"NEUTRONE PRESCRIPTION 99"
A WONDER

At last a real does-what-it-says Rheumatic Remedy, nothing like it was ever before known and that is no joke.

Every man and woman who has Rheumatism, Gout or Neuralgia, ought to try "Neutrone Prescription 99" at once and see how marvelously it works.

Cut out those fiery liniments and dirty salves, use a good clean internal remedy. "Neutrone Prescription 99" is

remarkable because it purifies the blood, assists in nature's way, gives you what you need to fight off Rheumatic

Poisons, a good clean healthy system. It's not one of those temporary relief

affairs, good only while using, it is lasting. Get a bottle today and your Rheumatic days are over, no more inflamed, stiff aching joints and muscles, can you imagine it, well it's all true.

Pitman & Wilson, Druggists, and leading Druggists everywhere.

Michigan-Ohio border and at Monroe, Michigan, a stopping-off point between the cities the state constabulary, deputy sheriffs and agents of the state pure food and drugs bureau are mobilized in force.

They daily intercept automobiles laden with liquor. Some of them they capture. How many get by undetected is problematical. Not a night passes without leaving its tale of exciting races through the dark. Anywhere from one to four wrecked automobiles are found in the ditches by the road's saturated with their ill-fated cargoes.

Practically every weapon known to war, except poison gas and howitzers, is to be found in the smuggler's arsenal. Clubs, revolvers, knives, rifles, blackjacks, shotguns, rocks' slugs of iron and bottles are used.

Officers peering into freight cars in search of contraband have been pounded with clubs, beaten with blackjack, stabbed, shot at and otherwise discouraged. Booze runners often smuggle themselves and their goods into freight cars, under piles of material in the hope of evading detection, and always fight with every weapon at hand to escape arrest and jail.

The automobile whiskey smugglers often work in squads, one machine acting as a scout car, well in advance of the main body to discover traps or draw the pursuit. Convoys of this type bring in anywhere from 1,000 to 5,000 quarts of whiskey in one trip. At current prices the value of the larger amount would be close to \$40,000.

Individuals travel daily between Detroit and Toledo and seek to smuggle back a few quarts for home consumption. They use suit cases with false bottoms, hot water bottles, capacious pockets, and double compartments. Women have been known to carry a girdle of whiskey bottle about their waists, under coats or skirts. Officers search all interurban cars thoroughly.

Automobile owners make use of practically every part of their cars to smuggle in a supply of drinkables. Camouflaged tire and inner tubes succeeded for a while, but the police found a leaky one and now all tires and tubes are examined. Tops with doubled linings, tool kits, hollow seats, extra gas tanks' special compartments built around the motor hollow doors and other parts of the machine were successful in the early stages, but today they are hopeless.

Probably the most successful of the rum runners are those who use the railroads. They operate on a large scale, risking carloads of liquor at a throw. The whiskey comes buried in piles of vegetables, stuffed into piano cases and shipped as furniture, bibles, ink, rags oil and a hundred other common commodities.

A carload of huge, padded armchairs arrived from Chicago and an inspector noticed the wrapper of excelsior on one chair appeared to be damp. One of the bottles inside the upholstery had broken. A car of cement yielded several hundred cases of whiskey. Leaking cases of books and other nonleakable articles often announce the real nature of shipments.

Other cities in the state offer a good market, but Detroit is the recognized ready market where good prices obtain and the huge quantities of wet goods disappear like so much rain in the desert. The margin of profit is great. The whiskey, purchased in wholesale lots at about \$5 per gallon is sold at from \$7 to \$10 per quart.

Marvelous tales of wealth are told. One man is credited with having cleaned up close to \$500,000 in less than three months. Others are said to have made anywhere between \$100,000 and \$500,000.

The World's Tractor

This one man single unit two wheeled Tractor weighs 1700 pounds and in ten hours will plow four acres. Disc twenty acres with a seven-foot tandem disc. Harrows forty-five to fifty acres with a 15-foot harrow. Plant twenty to twenty-five acres of corn, cultivate 20 acres with a two-row cultivator. Harvest ten acres with a corn binder. Cut twenty acres of wheat with an eight-foot binder. Mow fifteen acres with five-foot mower rake or pull a hay loader; and in addition can be used for belt work not requiring to exceed ten to twelve horse power.

This Tractor has been in use for four years and is not an experiment. It is superior in every detail of construction.

When the Indiana Silo Company went into the Tractor business four years ago, they found the trouble with Tractors was that they were always laid up for repairs. They have solved that part; they have so constructed it so as to reduce repair bill to a minimum and is so simple any boy can operate.

HOW WEAK, NERVOUS WOMEN QUICKLY GAIN VIGOROUS HEALTH AND STRONG NERVES 7 A DAY FOR 7 DAYS

A Vigorous, Healthy Body, Sparkling Eyes and Health-Colored Cheeks Come in Two Weeks, Says Discoverer of Bio-feren.

World's Grandest Health Builder Costs Nothing Unless It Gives to Women the Buoyant Health They Long For.

It is safe to say that right here in this big city are tens of thousands of weak, nervous, run-down, depressed women who in two weeks' time could make themselves so healthy, so attractive and so keen-minded that they would compel the admiration of all their friends.

The vital health building elements that these dependent women lack are all plentifully supplied in Bio-feren.

nounced her title as, princess and here after will be known as Lady Ramsay.

Ramsay wooed the Princess despite objections of her father, the Duke of Connaught, brother of the late King Edward and uncle of the present king of England.

The wedding ceremony was carried out with as little pomp as possible, because of the death last month of Prince John youngest son of the king and queen.

Besides the king and queen, those present included the crown princess of Sweden, the ex-king of Portugal, ambassadors and diplomatic representatives and the leading nobility of Great Britain.

The bridesmaids were: Princess Mary, Princess Ingrid of Sweden, Princess Maud of Fife, Lady Mary Cambridge, Lady Henel Cambridge, Lady May Cambridge, Lady Ida Ramsay, and Lady Jean Ramsay.

THE BRIDE WILL WEAR

London, Feb. 27.—Princess Pat's trousseau is British made.

The predominant color is blue. It consists of a great number of gowns for dancing, tea and parties; 48 nightgowns and petticoats galore.

One dancing gown has panned back and front in soft silver, with gold netting at the sides. Beneath the silver and gold are wide Turkish trousers of oyster satin fringed around the ankles in gold.

The nightgowns are of silk, blue and pink, with white rabbit fur trimming.

Much of the lingerie is trimmed with yellow ribbons.

Special progress has been made by the committee on reparation and responsibility for the war, it is understood.

LIVE STOCK BILL IS PAST SECOND READING

Measure in Which Local Farmers
Are Interested Survives At-
tempt at Amendment

JINNETT FAVORS THE CHANGE

The bill to create a state live stock sanitary board to take the place of the present state board of veterinarians, in which Rush county farmers have evinced a deep interest, has passed second reading and been sent to engrossment in the lower house of the general assembly in Indianapolis. Before passing second reading yesterday afternoon, there was a discussion of the proposed amendment to give the deciding vote of the board to the state veterinarian instead of the governor which was finally rejected. Representatives Jinnett of Manila and Symons of Lewisville, Henry county, spoke in favor of the amendment.

Local stock raisers were reported to have supported the bill in its original form, which took from Purdue university control of stallion enrollment and placed in the hands of the proposed board. The bill has been amended, however, during its course through the house to leave the stallion enrollment board at Purdue.

The bill has passed the senate, but in much different shape than it is now in the house. The senate bill gives the governor the deciding vote and makes the proposed sanitary board the stallion enrollment board.

MEETING IS THE BIGGEST OF SERIES

Dr. Robert Brumlay, National Le-
ague Worker, Speaks at Win-
My-Chum Service

"HEADLINER" COMING TONIGHT

One of Prominent Men at Centenary
Conference in Indianapolis Will
Give Address

Last night's meeting of the Win-My-Chum services, being held by the Epworth League at the St. Paul's M. E. church each evening during the week, was the biggest one of the week. Dr. Robert Brumlay of Chicago, a national Epworth League worker gave the address of the evening. The Girls High School Glee Club sang a beautiful number, "Deep River," and Miss Marion Kinsinger and Ernest Parke played a very excellent violin duet. They were accompanied at the piano by Mrs. Parke.

"The Centenary and its Relation to Young People," was the subject of the address given by Dr. Brumlay, in which he showed how the Epworth League was ready and prepared to meet all of the demands of the Centenary. His particular appeal was for life service, in which he showed his hearers the great call for young life today as never before, to devote itself to church work.

The meeting this evening will be addressed by one of the "headliners" from the big meetings being held today and tomorrow in Indianapolis. It is probable that Dr. Murook, said to be a very interesting speaker, will give the address. There will also be special music.

"Soldiers Night" will be Friday evening the entire hour will be given over to stories told by the returned soldiers and appropriate musical numbers. Jerome Caron will tell the story of "Going Over the Top," and S. B. Groom, who recently moved here and who was for some time stationed in the navy at Hampton Roads, will tell the story of the life of the sailors.

FINED FOR ASSAULTING SCHOOL HACK DRIVER

John Wills, Colored, Pays \$1 and
Costs for Severely Beating John
Ryon—Provoke Alleged

NO JURISDICTION IN CITY.

John Wills, colored, was fined one dollar and costs by Squire J. P. Stech late yesterday for assault and battery. The charges were filed by John Ryon of Neff's Corner. Mr. Ryon is a school wagon driver and hauls Wills' brother and sister. It is alleged that Mr. Ryon insulted the children until they would no longer ride with him, coming home crying at night. Mr. Ryon was asked about the matter and when he called John Wills insulting names, it is alleged, he was severely beaten by Wills.

Wills pleaded guilty to the charge and after paying the fine said: "Judge I paid this fine and if he repeats his insults tomorrow, I will pay another one of the same size, but Mr. Ryon will get a worse beating up next time."

Roy Wills, a brother, who is said to have had a part in the fight, was charged with assault in another affidavit filed by Mr. Ryon, but it was dismissed on motion of the prosecutor after John paid his fine. The Wills then filed an affidavit against Ryon for provoke, but it was dismissed because Squire Stech found that he had no such jurisdiction in such cases, it being necessary to prefer provoke charges with squires in the township where the alleged offense was committed.

London, Feb. 27.—The Bolsheviks are planning a combined offensive on practically all fronts, it is revealed in captured orders of the Spartacan military commander, a dispatch from Archangel reported today.

Only the Murmansk and Finnish fronts will be excluded from the offensive and preparations will be made there for defensive fighting. While these preparations are going on the allies have successfully undertaken an offensive on the Murmansk front.

Reports received from Archangel today said the allies advanced 20 miles in that region, the Bolsheviks suffering heavy casualties. Other dispatches said the head of the American Red Cross mission in Russia had reported that the Bolsheviks massacred hundreds of civilians.

Berlin, Feb. 27.—Anarchists, charging the Spartacans are to conservative, have started a counter revolution in Germany.

Reports from Dusseldorf today stated that anarchists had overthrown the Spartacans and seized control of the city.

Meanwhile the Spartacan-Soviet revolution has spread to all parts of the country. New uprisings strikes and riots were reported in Saxony, Bavaria, the Rhineland and Ruhr districts.

Weimar, the present site of the German government, has been cut off from Berlin and no information could be obtained as to what had transpired there.

The miners and industrial workers in Saxony have joined the Spartacans and that entire country is reported to be paralyzed.

The soviet government in Munich has threatened to execute ten prominent citizens if the German government sent Prussian troops against them. In Berlin the congress of workmen, soldiers and peasant council demanded that the assembly become a provisional national council.

MAJORITY AGAINST HOSPITAL IS 917

Official Tabulation of Vote Today
Shows 1,612 Were Cast Against
it and 695 For it.

COST WILL BE ABOUT \$500.

County Saves About \$800 Because
of New Law Passed Monday Re-
ducing Election Officials.

The official vote on the county general hospital election Tuesday shows a majority of 917 against the proposal. The total vote for the hospital was 695 and against 1,612. The election commissioners met this morning, as provided by the law and canvassed the vote. Although unofficial figures presented yesterday varied slightly from the official vote, some peculiarities of the vote noted yesterday, were borne out in the board's tabulation.

For example, the official vote disclosed that Center township No. 2 was the only precinct in the county which did not give a vote for the hospital; also that no precinct outside of Rushville township carried for the hospital except Noble No. 1, which gave the hospital a majority of five votes. All but two precincts in Rushville showed a small majority for the hospital. In one there was a tie and in another the majority against the hospital was six.

It was estimated today, judging from the claims which have been filed, that the election will not cost the county much over \$500. The claims amount to all the way from \$10 to \$24.50 a precinct, which includes pay for officials, voting places and meals.

The county saved close to \$800 because of the passage of the new hospital law Monday afternoon by the legislature because it provided that only an inspector and one clerk should be hired in each precinct. This did away with another clerk, two judges and two sheriffs, whose salaries alone would have

SAVE MONEY ON SHOES FOR THE WHOLE FAMILY

From Poochow, China, comes this letter from R. E. Gardner, Poochow College: "Neolin Soles have solved the shoe problem for me. Other soles wore out quickly on the rocky roads here, and I had no end of trouble with them," he writes.

Where other soles fail, Neolin Soles always stand the test of hard wear and rough usage. This fact points the way to economy. Buy Neolin-soled shoes for the whole family, and so save shoe money. And have Neolin Soles put on your old shoes, too.

MOSCOW FIVE WINS AGAIN

High School Basketball Team Defeats Arlington 15 to 13

Moscow high school defeated the Arlington quintet Wednesday night for the second time this year, by the close score of 15 to 13. The game was fast and the losers led for the greater part of the game, only to lose out in the last few minutes of play. At one time it looked as if an overtime period would be required to settle the contest but this was not the case. Harlin starred for Moscow, scoring the greater number of Moscow's points. Both teams will play in the tournament here Saturday and each is wanting a chance to defeat the other.

Bad Teeth Often Cause Rheumatism

So Says James H. Allen, Who Drove Out Rheumatic Poison After Being Grippled For Years

SAYS IT'S EASY WHEN YOU HAVE THE RIGHT MEDICINE

Take my prescription, which all first-class druggists dispense under the name Allenhu, says James H. Allen. In two days it will start to drive the poisonous uric acid from your joints and muscles, and free you from all rheumatic pain and agony and reduce swollen joints.

Rheumatic poison often gets into the system through decayed teeth, and in consequence people who desire to avoid rheumatism in years to come should have bad teeth attended to at once.

Wear warm clothes, get out in the fresh air and sunshine whenever possible; keep the body clean, drink plenty of pure water, don't overload the stomach, and avoid alcohol, even in its mildest form.

These are precautions worth heeding, but to banish all signs and traces of rheumatism and do it quickly, hundreds of well people, once full of rheumatism, will freely urge you to get a bottle of Allenhu at once.

The blessed relief this marvelous prescription quickly gives has made for it thousands of friends. It is Mr. Allen's own discovery; it made him strong and well after rheumatism had crippled him and made him unfit for work. It is guaranteed. —(Adv.)

FRISCO GOES TO MAT WITH STREET RAILWAY

Damage Suits Involving Nearly \$7,000,000 Are Filed Against The City by U. S. Railways

CAR LINE NEXT TO RAILWAY

(By United Press.)

San Francisco, Cal., Feb. 27.—When the case of the United Railways against this city is argued in the U. S. supreme court in March, Sen. Hiram Johnson will be one of the attorneys representing the city. Damage suits against the city totaling nearly \$7,000,000 are indirectly involved. Johnson's fee will be \$10,000.

The United Railways Co. is suing because the city established a street-car system on Market street, paralleling the company's tracks. The city's cars took many thousands in fares that otherwise would have gone to the private concern. The company seeks an injunction to prevent the city operating these lines.

Incidentally, San Francisco's street-car fare has remained at 5 cents, while fares in many other cities have jumped to 6 cents. Friends of the municipal line claim competition is the reason for this.

Famous Melodrama Tonight

Knowing a phase of English life that under the stress of the war may never be seen again "Sporting Life," Maurice Tournier's splendid picturization of the famous Drury Lane melodrama which scored so heavily two decades ago is one of the greatest motion picture spectacles produced in this country in many years. "Sporting Life," will be shown at the Princess theatre tonight and tomorrow.

The scenario by Winthrop Kelley departs from the original play mainly in the elaboration of detail. The general outline is not disturbed, the plot concerning itself with Lord Woodstock's winning of the Derby with his mare Lady Love, and his stepping into the ring to take the place of an "unknown" pugilist whom he had backed heavily and who had been drugged through the agency of Olive de Carteret, the vamp, at the instigation of her husband, who is Lord Woodstock's deadly enemy. The story has to do with the attempt of de Carteret to ruin Lord Woodstock.

The romantic element is provided by the Earl who is in love with the daughter of his chief trainer. Her sister loves Joe Lee, a prize fighter, not wisely but too well, and when she attempts suicide, her father on learning the truth, becomes the willing tool of Mrs. de Carteret in doping Lee just as he is to step into the ring. Lord Woodstock takes his place and not only wins the fight but thousands of pounds as well.

The production is a notable one from every angle while the support is exceptionally good. The principals in the cast are Ralph Graves, Warner Richmond, Charles Craig, Constance and Fair Bumeay and Willette Kershaw.

Thrilling Drama at Mystic

The picturesque West in the early days has furnished subject matter for many a melodrama, but none of them will be more alluring and attractive or vivid with human interest than Marie Walcamp's first big Bluebird production, made from Bret Harte's famous story of "forty-niner" days, "In the Carquinez Woods," which will be shown under the title of "Tongues of Flame," at the Mystic tonight.

Marie Walcamp, known to hundreds of thousands of fans because of her recent daring in "The Lion's Claws," the thrilling Bluebird wild animal serial, was picked to play the role of Teresa, the dance-hall girl, who reforms under the influence in the woods of L'Eau Dormant, the educated half-breed, who lives as a hermit in a large hollow tree.

A love quadrangle in which the half-breed, Teresa, the sheriff and a minister's daughter figure, comes to a terrific climax when the woods catch on fire and Teresa, Dormant and the sheriff are encircled by its flames. Then comes a startling de-

PREDICTION, NOT A THREAT

Ice Dealers, in Session Today, Think Prices Will go Up

(By United Press.)

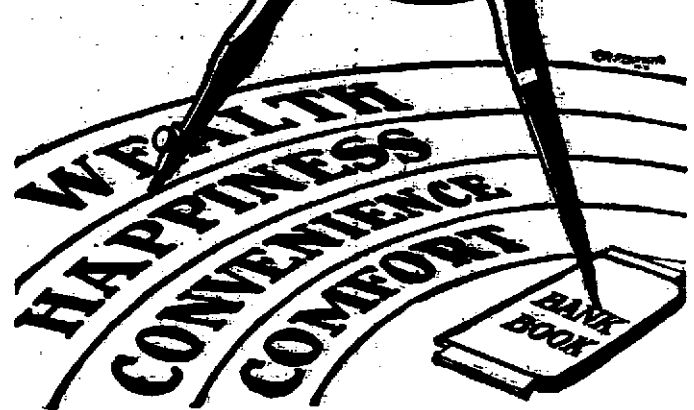

Indianapolis, Ind., Feb. 27.—That "every rose has its thorn" was brought out more forcibly here today when delegates to the annual meeting of the Indiana Ice Dealers association announced that owing to the mild winter ice would be scarce and high priced next summer. As an aid to the situation, however, they pointed out that the season will be "dry" in Indiana, while only a portion of 1918 was affected by the dry law. Hotels, saloons and cafes were heavy users of ice for refrigerating liquor. This year the trade will be entirely without this stimulus and the soft drink business is not expected to be sufficient to take its place.

They Let Him Sleep.

H. T. Strayger, Gainesville Ga., R. No. 3., was unable to sleep all night without getting up. "Sometimes only a few minutes after going to bed, I would have to get up, and I tried everything I heard of for the trouble. Finally I tried Foley Kidney Pills and after taking one bottle I believe I am entirely cured, and I sleep soundly all night. Behind the Procession

The voters of Rush county—those who went to the polls Tuesday—spoke plainly on the hospital question. They buried the project so deep that it can not be resurrected for a few years, at least, and Rush county will have to be content with lagging behind, though she is one of the wealthiest counties in the state, in proportion to her population.

But it may be that Rush county got her wealth by holding on to it and a big majority of the voters Tuesday decided that they would continue to cling to it. Of all the elements that entered into the consideration of the hospital, the one element of expense with the pivotal point—the thing which turned the balance against the hospital.

Unfortunately the small taxpayer did not realize which side his bread was buttered on, to quote a homely phrase. He did not think of the immense benefits to be derived from a county general hospital, in comparison with the small cost to him, else he would have taken the time and trouble to vote for the hospital.

Where the majority of the people in ordinary circumstances live, the

hospital carried. Those who neglected to go to the polls overlooked an opportunity to better their own conditions. Perhaps they will have a fuller realization of the worth of a hospital the next time the question is submitted to the voters.

Those who favored a hospital on any site regret that the controversy over the location ever arose, but this did not cost the county the hospital. Very few voters considered the site when they weighed the question and decided which way they should vote.

A hospital was first proposed as a memorial to the soldiers and sailors of Rush county who died in the war. There are some who hooted at the idea of a hospital as a memorial and talked in large terms about a Y. M. C. A., a community center, a new city building with an auditorium and other fine things.

If it is impossible to get a majority vote for a hospital which everyone in the county would pay for, suggestions should be forthcoming about methods to be used to raise enough money by public contributions to erect any sort of a building as a testimonial to the sacrifices of the men who went from Rush county to serve their country, almost a score of them never to return.

Community Work

Think of the happiest and at the same time the most wide-awake and progressive family you know—the one which most closely illustrates your idea of family life. Analyze the secret of their success, and you will probably find it lies in their power of co-operation and compromise. No member insists in carrying out his own wishes regardless of the interests and wishes of the others. Each claims a little and yields a little. The real basis of their life is a spirit of mutual help and forbearance.

The community is only a larger

family. To accomplish satisfactory results there must be a body of citizens working together, in harmony. And in order to achieve anything worth while, each man must not insist too strongly upon his own wishes and ideas. When he finds that they conflict with the ideas of others he must be prepared to yield the less essential details of his plan—or perhaps to attain only part of his object.

If the public improvement which he has at heart seems desirable enough to warrant it, he must be must be ready to support his neighbor's pet project (if it is not distinctly an unworthy one) in order to gain the neighbor's support to his own object. He must control his temper, study the personality of the man he is dealing with, use tact and consideration.

These are qualities we must all cultivate to work with each other successfully and to do our part in the community life.

Now that the Red Cross auxiliaries are closing up everywhere will there be another era of bridge whist and embroidered doilies?

A captured German colonel said dolefully, "Nothing can resist the American troops." We always knew that the American girls were irresistible—perhaps the boys learned it of them.

Maybe when President Wilson is again settled at the White House he and the senate will hold a love feast—and then again maybe they won't.

It is a question which brings the greatest aggregate amount of joy to America—the day when a transport from France arrives or the day when the price of butter drops a cent a pound.

Premier Clemenceau says that President Wilson is "the most stubborn man he ever encountered." It will be recalled that the emblem of the Democratic party is a stubborn one and that the emblem of the United States is as determined as it is powerful.

Nearly \$35,000 in Bribe Money Besides Valid Money Used in Slack-er Scandal.

FIVE ARE NOW UNDER ARREST

(By United Press.)

Washington, Feb. 27—Nearly \$35,000 in bribe money, besides valid currency, constituted the price paid in the third army naval district slacker scandals, according to naval

department estimation on record here. The report of the investigation showed 5 persons under arrest with a prospect of further detention in and out of the service.

Prominent civilians are believed involved but the department, while promising not to shield them, declared that the case is not sufficiently developed to publish names.

**WOULD GIVE SOVIETS

President of German Republic Believes This is Only Means of Pacifying Them

WANTS A NATIONAL SOVIET

(By United Press.)

Weimar, Feb. 26.—Creation of a national workers Soviet as a lower legislative branch in the German government is favored by President Ebert as the only solution of the political and economic situation.

Ebert believes that the Soviets cannot be crushed and that they will not be pacified until recognized and given government responsibility. According to his plans, the proposed national Soviet would deal with all industrial questions but would have no power to veto measures passed by the national assembly, which would remain the sovereign department of the government.

Members of the cabinet have not yet accepted the president's plan regarding the recognition of the Soviet, but many strong leaders in the national assembly are expected to side with Ebert.

ONE CHARGE IS DISMISSED

Otis Jones' Trial on Other Embezzlement Case Postponed

Before time for the trial of Otis Jones of Indianapolis, formerly of this city who is charged with embezzlement, before Squire J. P. Stech yesterday afternoon, one of the affidavits against him was dismissed on motion of Prosecutor Stevens, a settlement having been made with Herman Tompkins, who filed the affidavit. The other charge, contained in an affidavit filed by Noah Tryon, is still pending, and the trial of the case was postponed yesterday afternoon until Monday, March 31. Jones was accused in both affidavits of having sold automobiles belonging to Mr. Tompkins and Mr. Tryon and appropriated the money to his own use.

Human Stuff --that's why!

There isn't anyone in pictures quite like HARRY CAREY—because he can't be imitated. There are mighty few actors who are so unaffected, so real in every look and gesture, so likeable in every understandable, human action.

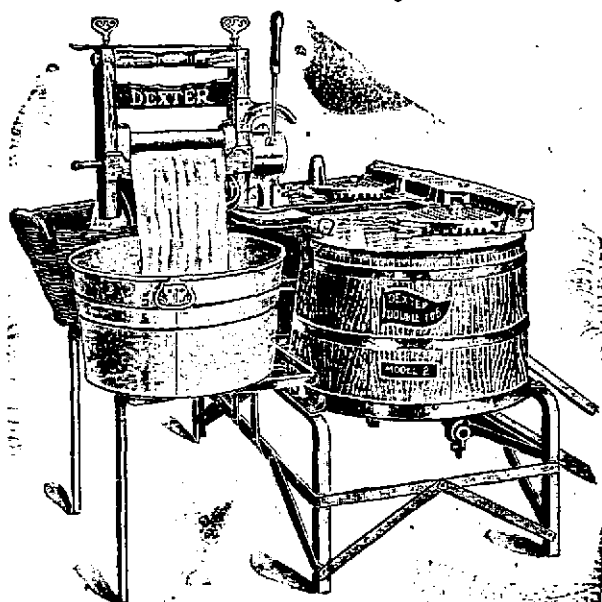

Now you know why his audiences love him. Because they can see him think. Because he's one of them and they're right with him all the time. Because he's human and they understand him.

Let the solemn Law lay its ponderous hand on Harry's shoulder and out comes the old sack of "Bull" and the cigarette papers and you see Harry begin to think. And right away you hear

the deep-chested chuckles of joy begin, too—because they know perfectly well that their old pal Harry will pull some outrageous trick and make his get-away just in time to outwith the villain and get his girl back again where she ought to be.

Down on your luck, are you. Go see HARRY CAREY! Is the cold, unfeeling world against you? Go see HARRY fight it. In love, poor puss? Go see how HARRY wins his girl. Whenever you want a laugh, a gulp, a thrill and a peach of a love story—whenever you want just human stuff—go CAREY!—the best of all Western character actors before the public today.

PROMINENT DOCTORS EXCITED AND AMAZED

**They Are Worked Up Over The Action of
Phosphated Iron Making The Weak Strong**

Victims of weak nerves and run down systems due to lack of pure blood will be glad to know that there is, according to the best physicians a reliable remedy for them.

Many who were steadily going down hill to permanent illness and nervous breakdown have regained perfect health by taking Phosphated Iron, the new blood and nerve food.

One elderly woman said, "I was all in, looked and felt like the last run of shad, was clear discouraged without ambition or appetite. Now look at me. I have the good health and bubbling spirits of a girl of eighteen, eat and sleep well. It made a new man of my husband too. And though we are well along in years we both face the future with confidence, knowing that as long as our blood is charged with good health-giving Iron and Phosphates we are safe."

Again a bookkeeper who used it says: "If ever a man had a case of nerves it was me. I could not sleep at night, the least sound made me jump, appetite gone, everything was up hill work and I felt myself slipping every day. My doctor said: 'Try Phosphated Iron, it is the exact remedy you require.' The

first week I improved; my nerves steadied down so that I slept, my appetite and digestion improved, and it seemed to me that I could almost feel the Phosphates and Iron feeding my weak watery blood and tired nerves. I now weigh 25 lbs. more than I ever did, and much stronger."

A prominent physician to whom the above statements were submitted said: "Yes, Phosphated Iron is easily the most wonderful Iron prescription yet discovered. Its ingredients are well known to all blood and nerve specialists and widely prescribed by them. I have used it very successfully in my own practice and cured many patients where other physicians had failed. I can highly recommend it for all cases of weak nerves and poor blood, as well as general loss of tone, with absence of appetite. It seldom fails me in this class of cases."

Special Notice: To insure doctors and their patients getting the Genuine Phosphated Iron we have put in capsules only, so do not allow dealers to sell you pills or tablets.

PRUSSIA SEEKS WORLD SYMPATHY

**Attitude of the Prussian is Not

CONCLUSION OF VISITORS

**Question is of Most Interesting and
Confusing to Understand—
Realize Their Defeat**

By FRANK J. TAYLOR
(U. P. Staff Correspondent.)

Berlin, Feb. 1. (By Mail).—That Prussian attitude and ambition is quite unchanged, so far as individuals are concerned, is one of the conclusions a foreigner is forced to believe after living in Berlin long enough to talk to people and to find out what they think.

The question is one of the most interesting and also most difficult to understand. By Prussians is meant the people of North Germany, as distinguished from those of other parts of the country. It is not hard to decide where they are from, no matter where you meet these people, nor is everyone in Berlin Prussian.

As a nation, Germans everywhere realize their defeat and realize the helplessness of their situation. But the attitudes toward the problems before them is sharply contrasting when you talk to South Germans after discussing the situation with Prussians.

Unconsciously, the Prussian as-

Cold Weather

MANURE SPREADER

Every man who is at all familiar with, or is making a study of the question of barn yard manure for fertilizing the soil, realizes the vast waste as a result of DELAY IN GETTING THIS MATERIAL ON THE SOIL. Every man who knows anything about this subject appreciates the waste due to burning, seepage and atmospheric deterioration, but very few fully realize what an ENORMOUS waste this actually is.

The up-to-date modern farmer is considering just as carefully the placing of the fertilizer on the field AT THE PROPER TIME, as he is giving attention to the disposing of his hogs and cattle at the exact time when the market price is right.

He cannot handle this material successfully every week in the year except with a machine that will work successfully in cold weather as well as in warm weather. Here's where RUSHVILLE SPECIAL Spreader stands out prominently as an unconditional success, and here is the answer WHY.

This spreader has the only SELF-CLEANING, FORCE-FEED END-LESS Conveyor manufactured. Materials falling through the top in cold weather won't clog and freeze on the under sections as it does on all other machines, and therefore put it out of commission. This spreader will go through snow drifts with two horses where other machines will keep three horses busy on a good road.

The distribution is perfect and if you can see your tracks in the snow the next day you will know that you are not overlapping or leaving a blank space. You can't depend on this with the irregular distribution as found on other machines. The SELF-OILING Bearings on RUSHVILLE SPECIAL Spreader do away with the cutting and wearing-outs common to other spreaders, because of failure to oil under freezing conditions.

The RUSHVILLE SPECIAL Spreader sticks to the ground. When the horses go the wheels turn. This is because of good traction and light draft. The only successful combination for icy, slippery ground.

RUM-RUNNERS LEAD A ROMANTIC LIFE

Colorful Chapter Written in the
History of Prohibition by Daring
Bands of Smugglers

FROM TOLEDO TO DETROIT.

The Michigan State Constabulary
Has Many Thrilling Chases Af-
ter Law Violators.

(By United Press.)

Detroit Mich., Feb. 27.—A colorful chapter in the history of prohibition is being written by numerous daring bands of whiskey smugglers operating in Michigan.

Their attention is centered principally on Detroit.

Smuggling whiskey into the state today is not the crude, haphazard business it was when Michigan went dry, last May. Brains, daring and ingenuity are necessary to circumvent the forces engaged in enforcing the dry laws.

The principal source of supply for Detroit and vicinity is Toledo, O. Two good automobile roads connect the cities. Along these roads, at the

"RHEUMATIC KINKS" GO

"NEUTRONE PRESCRIPTION 99"
A WONDER

At last a real does-what-it-says Rheumatic Remedy, nothing like it was ever before known and that is no joke. Every man and woman who has Rheumatism, Gout or Neuralgia, ought to try "Neutrone Prescription 99" at once and see how marvelously it works. Cut out those fiery liniments and dirty salves, use a good clean internal remedy. "Neutrone Prescription 99" is remarkable because it purifies the blood, assists in nature's way, gives you what you need to fight off Rheumatic Poisons, a good clean healthy system. It's not one of those temporary relief affairs, good only while using; it is lasting. Get a bottle today and your Rheumatic days are over, no more inflamed, stiff aching joints and muscles, can you imagine it, well it's all true.

Pitman & Wilson, Druggists, and leading Druggists everywhere.

Michigan-Ohio border and at Monroe, Michigan, a stopping-off point between the cities the state constabulary, deputy sheriffs and agents of the state pure food and drugs bureau are mobilized in force.

They daily intercept automobiles laden with liquor. Some of them they capture. How many get by undetected is problematical. Not a night passes without leaving its tale of exciting races through the dark. Anywhere from one to four wrecked automobiles are found in the ditches by the road saturated with their ill-fated cargoes.

Practically every weapon known to war, except poison gas and howitzers, is to be found in the smuggler's arsenal. Clubs, revolvers, knives, rifles, blackjacks, shotguns, rocks, slugs of iron and bottles are used.

Officers peering into freight cars in search of contraband have been pounded with clubs, beaten with blackjack, stabbed, shot at and otherwise discouraged. Booze runners often smuggle themselves and their goods into freight cars, under piles of material in the hope of evading detection, and always fight with every weapon at hand to escape arrest and jail.

The automobile whiskey smugglers often work in squads, one machine acting as a scout car, well in advance of the main body to discover traps or draw the pursuit. Convoys of this type bring in anywhere from 1,000 to 5,000 quarts of whiskey in one trip. At current prices the value of the larger amount would be close to \$40,000.

Individuals travel daily between Detroit and Toledo and seek to smuggle back a few quarts for home consumption. They use suit cases with false bottoms, hot water bottles, capacious pockets, and double compartment cans. Women have been known to carry a girdle of whiskey bottle about their waists, under coats or skirts. Officers search all interurban cars thoroughly.

Automobile owners make use of practically every part of their cars to smuggle in a supply of drinkables. Camouflaged tire and inner tubes succeeded for a while, but the police found a leaky one and now all tires and tubes are examined. Tops with doubled linings, tool kits, hollow seats, extra gas tanks, special compartments built around the motor hollow doors and other parts of the machine were successful in the early stages, but today they are hopeless.

Probably the most successful of the rum runners are those who use the railroads. They operate on a large scale, risking carloads of liquor at a throw. The whiskey comes buried in piles of vegetables, stuffed into piano cases and shipped as furniture, bibles, ink, rags oil and a hundred other common commodities.

A carload of huge, padded arm-chairs arrived from Chicago and an inspector noticed the wrapper of excelsior on one chair appeared to be damp. One of the bottles inside the upholstery had broken. A car of cement yielded several hundred cases of whiskey. Leaking cases of books and other nonleakable articles often announce the real nature of shipments.

Other cities in the state offer a good market, but Detroit is the recognized ready market where good prices obtain and the huge quantities of wet goods disappear like so much rain in the desert. The margin of profit is great. The whiskey, purchased in wholesale lots at about \$5 per gallon is sold at from \$7 to \$10 per quart.

Marvelous tales of wealth are told. One man is credited with having cleaned up close to \$500,000 in less than three months. Others are said to have made anywhere between \$100,000 and \$500,000.

The World's Tractor

This one man single unit two wheeled Tractor weighs 1700 pounds and in ten hours will plow four acres. Disc twenty acres with a seven-foot tandem disc. Harrows forty-five to fifty acres with a 15-foot harrow. Plant twenty to twenty-five acres of corn, cultivate 20 acres with a two-row cultivator. Harvest ten acres with a corn binder. Cut twenty acres of wheat with an eight-foot binder. Mow fifteen acres with five-foot mower rake or pull a hay loader; and in addition can be used for belt work not requiring to exceed ten to twelve horse power.

This Tractor has been in use for four years and is not an experiment. It is superior in every detail of construction.

When the Indiana Silo Company went into the Tractor business four years ago, they found the trouble with Tractors was that they were always laid up for repairs. They have solved that part; they have so constructed it so as to reduce repair bill to a minimum and is so simple any boy can operate.

Tractor will be in Rushville, Saturday, February 15th, and will be more than pleased to demonstrate it as soon as weather permits.

PRINCESS PATRICIA WEDS BRITISH OFFICER

With Her Marriage Today Princess Pat Renounces her Claim to the Title of Princess.

KNOWN AS LADY RAMSEY NOW

(By United Press.)
London, Feb. 27.—Princess Patricia, grand-daughter of Queen Victoria, was married here today to Commander Alexander Ramsay, of the British navy. Coincident with her marriage, Princess Pat as she is known in America, voluntarily renounced her title as, princess and here after will be known as Lady Ramsay.

Ramsay wooed the Princess despite objections of her father, the Duke of Connaught, brother of the late King Edward and uncle of the present king of England.

The wedding ceremony was carried out with as little pomp as possible, because of the death last month of Prince John youngest son of the king and queen.

Besides the king and queen, those present included the crown princess of Sweden, the ex-king of Portugal, ambassadors and diplomatic representatives and the leading nobility of Great Britain.

The bridesmaids were: Princess Mary, Princess Ingrid of Sweden, Princess Maud of Fife, Lady Mary Cambridge, Lady Henri Cambridge, Lady May Cambridge, Lady Ida Ramsay, and Lady Jean Ramsay.

THE BRIDE WILL WEAR

London Feb. 27.—Princess Pat's trousseau is British made.

The predominant color is blue. It consists of a great number of gowns for dancing, tea and parties; 48 nightgowns and petticoats galore.

One dancing gown has panelled back and front in soft silver, with gold netting at the sides. Beneath the silver and gold are wide Turkish trousers of oyster satin fringed around the ankles in gold.

The nightgowns are of silk, blue and pink, with white rabbit fur trimming.

Much of the lingerie is trimmed with yellow ribbons.
